

MYCOTOXINS IN DAIRY

+ 100 ppb ZEARALENONE

+ 200 ppb TRICHOHECENE

FOR PREVENTION / CONTROL

MYCO-AD A-Z

LOW LEVELS OF MYCOTOXINS

Aflatoxin M1 in milk

Daily feed intake
Milk production / quality
Immunosuppression

Cystic ovaries

Abortions
Vaginal lacerations
Repeated insemination
Non returning to estrus cycle
Delay returning to estrus cycle

> 5 ppb Aflatoxin B1

Most Mycotoxins

Zearalenone / DON

Zearalenone

The first and only
mycotoxin binder that TESTS
every shipment (18,000 kg)
using a totally independent laboratory
by HPLC for efficacy against:

3000 ppb Zearalenone @ 1.0 kg / mt
minimum efficacy of 95%

3000 ppb Fumonisin @ 1.0 kg / mt
minimum efficacy of 85%

3000 ppb Ochratoxin @ 1.0 kg / mt
minimum efficacy of 90%
